Dimensions

Scoring across the 8 deterministic dimensions of AI search visibility. Higher-weight dimensions move the overall score more.

Content Structure	15 / 20	WARN	1 issues
Citation Density	10 / 20	WARN	2 issues
Crawler Access	15 / 15	PASS	0 issues
Schema Markup	8 / 15	WARN	0 issues
llms.txt	10 / 10	PASS	0 issues
Entity Clarity	5 / 10	WARN	2 issues
Off-site Authority (proxy)	2 / 5	WARN	0 issues
Freshness	0 / 5	FAIL	1 issues

Top 10 fixes

Prioritized by severity. Issues marked auto-fixable can be patched automatically via AGNT Auto-fix.

HIGH · CITATIONS

Statistical claims are unsourced

Every % / 'X customers' / stat deserves an inline citation link to the origin study or publication.

HIGH · CITATIONS

External links exist but none hit the authoritative allowlist

Cite at least one .edu/.gov, Wikipedia, IETF/W3C spec, or tier-1 publication near your flagship claims.

LOW · ENTITY · AUTO-FIXABLE

Organization JSON-LD missing founder

Add 'founder': [{ @type: Person, name: ... }] to the Organization schema.

LOW · RUNTIME

Runtime Visibility panel skipped

Runtime Visibility requires at least 2 LLM engines. Add a second API key to enable the panel.

MEDIUM · FRESHNESS · AUTO-FIXABLE

No last-updated signal on homepage

Add <time datetime='YYYY-MM-DD'>Updated ...</time> or article:modified_time meta, or expose dateModified in Article JSON-LD.

MEDIUM · STRUCTURE

No 2–4 sentence summary paragraph above the fold

Add a 2–4 sentence paragraph immediately after the H1 summarising what the product is and who it serves.

MEDIUM · ENTITY

No clear self-identification in the opening paragraph

Open with 'We are ...' / 'Our mission is ...' / 'This is ...' — AI models need explicit entity framing.

Runtime Visibility appendix

The Runtime Visibility panel did not run for this scan. Requires at least 2 configured LLM engines.
